Thinking Faith

paternoster-publishing.co.uk
In our 2016 catalogue, there are new titles to stimulate, challenge and inform readers in churches, colleges and university faculties.

The new series Mission in Marginal Places (pp. 8–9) presents a thought-provoking foundation for contemporary mission. This fascinating work from editors Paul Cloke and Mike Pears re-energizes debate around questions of why and how mission in marginal places should be planned and implemented.

In his latest book When Faith Turns Ugly (p. 3), Brian Harris fearlessly opens the wound of poisonous faith, digs around to find the causes, and offers both insightful healing and powerful hope. This is a must-read, particularly for pastors and church leaders.

As you read on, our hope is that you’ll find books that will assist you greatly in your ministry and your academic pursuit.

Every blessing

SUMMARY
Following the huge success of *The Tortoise Usually Wins*, 2012, and *The Big Picture*, 2015, in *When Faith Turns Ugly* Brian Harris explores why the Christian faith sometimes wears two masks – usually life-serving and transforming, but occasionally escapist, illusionary and even poisonous. What are the warning signs that faith is at risk of turning toxic? What do we mean by the conviction that the gospel liberates? Brian Harris’s take on what constitutes life-serving faith is refreshing and will be appreciated by all who would like to be sure that their obedience to Jesus the Christ will help to build a world with a better name.

COMMENDATIONS
‘Toxic faith is such a blight on Christianity. It unravels our unity, muzzles our message and ruins our reputation. In *When Faith Turns Ugly*, Brian Harris fearlessly opens the wound of poisonous faith, digs around to find the causes, and offers both insightful healing and powerful hope. You will find the book provocative, challenging, and deeply satisfying. I loved it. Here is just a taste: “The opposite of faith is not doubt but certainty.” Mull over that and read the book for much more.’

Unlocking Revelation
5 Keys to Unlocking the Bible’s Final Words
AUTHOR: LAURIE GUY

SUMMARY
Revelation is a confusing book for many readers. This new work by Laurie Guy provides a solid, insightful foundation to clear that confusion and to give understanding. It does this by outlining five interpretive keys that are crucial to our reading; then by identifying five key themes of Revelation. The author underlines the fact that Revelation is a Jesus book, and it is a book of hope.

COMMENDATIONS
‘Unlocking Revelation is clear, succinct, thoughtful, well-written, helpful and relevant. Perhaps the key feature of Guy’s book, however, is that the interpretative insights it offers are built on the best of evangelical scholarship and undergirded by healthy doses of common sense. For many, if not most, books on Revelation, this is much rarer than you might think.’

THE AUTHOR
Until recently Laurie Guy was Vice Principal of Carey Baptist College, Auckland, New Zealand where he is presently an adjunct lecturer.
SUMMARY
This significant work offers a full-scale theological reflection on the doctrine of revelation, grounded in a contemporary biblical theology and developed in careful interaction with historical and recent debate within and beyond Christian circles. The doctrine of revelation answers the question ‘How do we know God?’ The short answer to this question, John McClean argues, is that we know God in and through his redemptive activity. This accessible and intriguing book traces God’s work to show himself to his people. McClean draws on Pannenberg’s emphasis on eschatological revelation as the goal and fulfillment of all ‘revelation’ and sets this in a wonderful biblical theology. He also synthesizes some of the recent stimulating work from theologians such as Vanhoozer, Wolterstorff, Work, Gunton and Horton.

COMMENDATIONS
‘This significant work is an excellent, creative account of a central idea in theology, answering the important question of how we know God. John McClean presents his theology accessibly, doxologically and with forthright conviction that to do theology properly and successfully is to start with divine revelation, with God graciously revealing himself in Jesus Christ. This is an erudite piece of work that encourages faith and worship.’

The Importance of Peter in Earliest Christianity

AUTHOR: PAUL W. BARNETT

SUMMARY
This fascinating new book by Paul Barnett, an expert in the New Testament, traces Peter’s life chronologically from his beginnings in Bethsaida to his martyrdom in Rome c. 64. It demonstrates the importance of the apostle Peter to earliest Christianity and to our own day through the biblical narratives and his letters. The record of his leadership between the resurrection of Jesus and Peter’s own death secured the vocation Jesus commissioned him to have as the ‘rock’. From failure to success, from denying Jesus to leading his Church in Jerusalem and beyond, Peter’s is a remarkable and inspiring narrative; his contribution to early Christianity was unique and irreplaceable. Paul Barnett is not only a sure guide to the subject, but a pastorally sensitive writer and communicator.

COMMENTS
‘Paul Barnett, in a very readable and well-informed account, reconsiders all the evidence and reconstructs a convincing narrative of Peter’s apostolic career. He offers some original hypotheses that deserve to be discussed by scholars, while writing in an accessible way for the general reader.’

SUMMARY
Too often the virgin birth of Christ serves merely as an evangelical shibboleth instead of a doctrine that affects our lives. The theological meaning of the virgin birth is rich in and of itself. The author argues that the doctrine has been too long ignored by the church. Collecting from disparate sources into one brief accessible volume, Richard Shenk encourages the church towards boldness, to understand the rich theological treasure that the virgin birth of Christ is for us, and to live out its significance in joy and practice.

COMMENDATIONS
‘This book seeks to move beyond the modernist-fundamentalist controversy by exploring the intent, beauty, and theological richness of the biblical account of the virgin birth. Rick Shenk demonstrates a solid grasp of the history of doctrine, and he ably argues that the virgin birth stands against philosophical naturalism, preserves Christ’s divinity and humanity, confounds the devil, reverses Eve’s folly, and serves as an analogy for the birth of faith. I warmly recommend this book.

Introducing Mission in Marginal Places

Christian mission is in some crisis. Traditional forms of mission and church life often fail to connect with contemporary society. Congregations struggle to maintain a purposeful sense of mission and in practice mission is often relegated to an occasional activity or left as an optional extra for enthusiasts. In this complex and challenging environment, Christian individuals, churches and colleges are woefully under-resourced in the field of contemporary mission; their guidebooks and their training have to a large extent been overtaken by events.

The vision behind this exciting new series is to equip existing churches as well as newly forming Christian communities and church-planting teams to develop significantly new approaches to mission.

Written and/or edited by Mike Pears and Paul Cloke, overseen by an Editorial Board of experienced authors and editors in the fields of contemporary theology, missiology and social science of religion (including Ann Morisy and Stuart Murray-Williams), the series will provide a platform of writing and story-telling about the theory, praxis and experience of contemporary mission.
SUMMARY
The second book in the series focuses on participation and practice, and discusses a range of ways in which Kingdom-centred mission can be embedded in the actually existing realms of activity and need in marginal places. The book explores five different realms of practice, each presenting opportunities for innovative expressions of incarnational attentiveness to marginalized communities and people. It seeks to inspire prayerful and discerning activity that tunes into what Jesus is doing in local places, rather than providing any kind of “off-the-shelf” checklist of prefigured mission tactics. It challenges readers to take their faith-praxis beyond orthodox congregational settings and out into the everyday realms of life in marginal places.

COMMENDATIONS
‘Building on the theoretical foundations laid in the first book in the series, this second volume examines five “realms” or spheres of life that provide the context for contemporary mission. Illustrating these with carefully chosen case studies, the editors helpfully invite readers to join the conversation as they make connections and pose further questions that move the discussion from theory to practice.’

Stuart Murray, trainer/consultant with the Anabaptist Network

Relationships and Emotions After Christendom
Practical Help for Constructive Relationships

AUTHOR: JEREMY THOMSON

SUMMARY
This accessible and practical book is a mixture of selected theological and psychological insights into key human emotions and relationships. Its aim is to help Christian people and churches to behave in relationships, and handle emotions, in constructive and liberating ways. It argues that, after Christendom, particular attention should be given to how Christians conduct day-to-day relationships, and that developing emotional literacy should be high on churches’ agendas.

COMMENDATIONS
‘This is an encouraging and stimulating book. Jeremy Thomson is a good theologian and well-trained counsellor – both enrich this volume. It not only invites the reader to review their own emotional literacy but helps explore one’s personal skills in dealing with others. Its rich breadth challenges us to think in good “whole person” terms in a time when such values are often lost. An excellent and challenging read!’

SUBJECT: Christian Life
SUMMARY
The Apostle Paul challenged Christians to live by the Holy Spirit. But how is such a Spirit-orientated life to be envisaged? How might it be defined? In answering these questions, this remarkable book investigates Paul’s concept of living by the Spirit. The radical conclusion of the book is that the Spirit-influenced Christian, engaged in a Spirit-endowed Church, aware of a Spirit-ordered world, under the authoritative guidance of a Spirit-inspired Word, lives a Spirit-coordinated life to the glory of God. A must read for those who wish to walk in God’s ways.

COMMENDATIONS
'Spirit and Life reclaims the cardinal role of the Holy Spirit in the practice of Christian living. The author revives the biblical, Pauline concept of “union with Christ,” especially in connection with John Calvin’s theology of “union with Christ.” Christian ethics is thus reformulated in terms of a holistic way of living and serving under the guidance of the Spirit. This book is much needed for those concerned theologically and pastorally to develop Christian spirituality and ethical life under the guidance of forgiving and vivifying Spirit, the second person of the Trinity.’

SUMMARY

Shalom is the motif of God’s peace and well-being. Jesus is the embodiment of that. In this extraordinarily liberating book Andrew Francis explores seven different, once-marginalized movements in their search for shalom in the life, ministry and example of Jesus. What would it look like to create a manifesto for Jesus-shaped living? What does it mean to say that the Spirit of the Lord is forming shalom through his church?

SUMMARY
Against the backdrop of feminist critique, Karin Spiecker Stetina gives us a thorough study of John Calvin’s ideas on the fatherhood of God. After looking briefly at Calvin’s own experience of fatherhood, the author looks in depth at his epistemology and then his imagery for God as Father against the background of the biblical and historical doctrine. This intriguing study allows us, through the lens of the reformer’s theology, to look again at what we mean by God as Father, and believers as sons and daughters of the living God.

COMMENDATIONS
‘This thorough and thoughtful book combines diligent historical research with timely contemporary relevance. Particularly welcome is Karin Spiecker Stetina’s concentration on Calvin’s Trinitarian theology and on the ways that his own biography may have shaped his exegetical and theological conclusions about divine Fatherhood and male-female relationships in this life.’

SUMMARY
The book traces and evaluates the development of the doctrine of the Church and its sacraments throughout the centuries, with emphasis on the Patristic age, the Reformation and contemporary argument. It gives space to how, from the sixteenth century, a greater understanding developed of the church as community as well as recent thought about the sacraments as a means of building that community. This distinctive work will be foundational for those seeking new and deeper understanding of the church and its communal life.

COMMENDATIONS
‘This is essential reading for all who wish to understand the nuances of church history. Dr Pope takes us on a complex and scholarly journey revealing how Church and sacrament have developed and changed throughout time. He is a master craftsman, bringing to life and critically engaging with major thinkers within our Christian heritage.’

Lisa Isherwood, University of Winchester

‘A study of ecclesiology which places key developments in ministry and sacraments in historical context is badly needed, and warmly to be welcomed. This study, by a historian who is also at home in systematic theology, is significant and cannot be ignored.’

SUMMARY
In keeping with the Scriptural witness and the theological heritage, this remarkable book examines the doctrine of creation alongside new creation. The connection between the two – creation and new creation – has drawn renewed attention in the last several decades; but the burden of Sean McDonough’s argument is that this emphasis on creation and new creation has been a feature of the doctrine since the beginning, whether in the eschatological reading of Genesis 1 that predominated at least until early modern times, or the intertwining of the narratives of creation and redemption in thinkers from Irenaeus to Barth. Whilst covering the traditional elements of the doctrine, McDonough treats the important subject with a special emphasis on how these unfold in the story of what Gunton has called God’s “creation project”.

COMMENDATIONS
Sean McDonough blends profound biblical exposition with rich theological and philosophical reflection to argue that “God’s purposes in creation can only be read clearly in light of their eschatological fulfilment.” This wide-ranging study not only addresses both classical concerns and contemporary questions, but stimulates worship and faithful participation in God’s creation project. It is a solid and welcome contribution to this fine series.

John Hick and the Universe of Faiths
A Critical Evaluation of the Life and Thought of John Hick
AUTHOR: CHRIS SINKINSON

SUMMARY
John Hick was one of the twentieth century’s most influential and creative philosophers of religion. In this book, Sinkinson charts the development of Hick’s thinking over his life and how this shaped his engagement with the world religions. Attention is paid to Hick’s epistemology and how this was key in his interpretation of both his own religion and the phenomena of religious pluralism. It can be shown that the development of Hick’s thought is the legacy of the liberal theology of the Enlightenment. The project begun by Immanuel Kant and Friedrich Schleiermacher is shown to find clear expression in the developed theology of religions proposed by Hick. The book includes a survey of his important books and a transcript of the last recorded radio dialogue that Hick had with an evangelical theologian.

COMMENDATIONS
‘John Hick’s contribution to religious studies has had a profound effect on modern Western theology. Chris Sinkinson’s thoughtful and robust assessment of Hick’s work is urgently needed. As we face the continuing challenges of religious pluralism, this book will enrich and encourage a new generation of orthodox scholars and believers “to contend for the faith once for all entrusted to the saints”. Highly recommended.’

SUMMARY
This remarkable and intriguing work is the only single author and introductory treatment of Colin Gunton’s significant theology currently available, tracing the key theological themes, major contributions and continuing criticisms of his work. The book highlights throughout the Trinity and the concept of humanity and mediation as critical to understanding Gunton’s theology. A chief aim of the book is to recommend Gunton to an evangelical audience, while providing a general introduction and overview to all who are unfamiliar with his work.

COMMENDATIONS
’Colin Gunton helped shape contemporary theology by inspiring and shaping many young scholars: he did this by his passion as much as he did it by his methodology and dogmatic conclusions. In this welcome survey of Gunton’s theology, Uche Anizor attentively captures not only the content, but also the energy behind Gunton’s work. Even when Gunton falls short, and he does at times, there remains so much to learn from him. Thankfully, Anizor’s volume will help us not forget the mark this joyful and yet restless theologian left.’

Leon Morris
One Man’s Fight for Love and Truth
AUTHOR: NEIL BACH

SUMMARY
Leon Morris’s story needs to be told. In this unique and long-awaited work, Neil Bach shows Leon Morris as a prodigious and original thinker from the wrong side of the world who restored the credibility of evangelical scholarship and the centrality of the cross. Many of us have been nurtured by his enormously helpful books on the cross, but few know about the obstacles that had to be overcome. The author gives us a life of Leon Morris which is true to the man, unflinching in its evaluation of his work and inspiring in its conclusions. The book claims what evangelicals have widely acknowledged: Leon Morris was, and remains, Australia’s most influential international scholar and pastor.

COMMENDATIONS
‘This biography provides the first comprehensive account of Australia’s pre-eminent biblical scholar, Leon Morris. His love of research, his devotion to the church and his heart for the Saviour shine forth throughout. It is a pity that we have had to wait this long for a full account of the life of this scholar-author-pastor. But at least we are now well-served.’

SUMMARY:
The current consensus amongst critical scholars is that the book of Daniel is a work of fiction. In *Historical Issues in the Book of Daniel* Thomas Gaston reviews and reappraises the historical evidence for the events recorded in the book of Daniel, as well as considering several other connected textual and theological issues. Through scrupulous academic argument Gaston concludes that the book of Daniel stands up to historical scrutiny.

COMMENDATIONS:
‘Gaston’s work can be commended on several accounts, but I will limit my comments here to only two. First, I appreciate his insistence on the importance of the historicity of the book’s hero. Second, . . . his determination to connect debates on the historicity of biblical events and persons with the practical issues of faith that affect the lives of believers and the way they relate to God and his revelation. . . . I recommend Gaston’s work to all serious students of Daniel’s book.’

The Authenticity of 2 Thessalonians

AUTHOR: DANIEL W. MACDOUGALL

SUMMARY:
This is a clear and well-argued work for the authenticity of 2 Thessalonians. Following a critical examination of the history of the dispute, the author examines the life and epistle of the earliest external witness, Polycarp, to show that the date for 2 Thessalonians is about AD 90. Through a careful reading of the letter MacDougall demonstrates that ‘tradition’ (2 Thess. 2:15; 3:6) is a characteristic of the undisputed letters of Paul, that the doctrinal content – eschatology and imitation – is Pauline, and that the letter’s style is authentic. MacDougall provides a seminal work on the subject.

COMMENDATIONS:
‘Daniel MacDougall clearly demonstrates that the use of traditional material in 2 Thessalonians is like that found in the undisputed Pauline letters. His analysis... shows that there is no need to resort to pseudonymity to explain the authorship of 2 Thessalonians. I highly recommend this book.’

The Will of Him Who Sent Me
An Exploration of Responsive Intra-Trinitarian Willing

AUTHOR: ANDREW MOODY

SUMMARY:
With discussions of the Trinity increasingly coming to the fore in theological controversies over human relationships, this book seeks to restore the focus to theology proper. In The Will of Him Who Sent Me Andrew Moody proposes that a carefully defined model for ordered Trinitarian willing can help us better understand the great themes of the Bible and the reason for salvation history itself.

COMMENDATIONS:
Andrew Moody has analysed and evaluated an issue of great importance in trinitarian thought. Does the order we see between Father, Son and Holy Spirit in the will of God worked out in the mission of Jesus of Nazareth indicate an order in the immanent Trinity? The issue... opens up a rich matrix of trinitarian thought, which through Moody’s deft handling, makes for a reading experience as pleasurable as it is profitable. The breadth of trinitarian doctrine so exposed, and the clarity and perceptiveness of analysis, commend the book as a must read.’

Faith Revisited
The Concept of Pistis in the Greco-Roman World and Its Impact on Paul’s Writings

AUTHOR: BERNIE A. CUETO

SUMMARY:
With the recent discussion regarding Paul and justification, there is a renewed interest in, and appreciation of, the Greco-Roman background of the New Testament. Special care has been taken to examine Paul’s writings in light of the cultural evidence and its impact on various interpretations. This latest study was written out of the desire to demonstrate, through exegetical and historical avenues, the significance of the Greco-Roman background on the Apostle Paul’s use of pistis. This careful work looks to the canon of Scripture and other historical sources to determine the origins and developments of Paul’s use of pistis, especially in the cultural Sitz im Leben of the Apostle’s original audience. It is argued that Paul’s use of pistis presents a unique development and progression from the former uses of this concept of faith.

COMMENDATIONS:
‘Cueto’s examination of the Greco-Roman background to pistis is full of important observations about the teaching of the earliest Christian movement. This is a fine study, well worth contemplating.’

Being Human, Being Church:
The Significance of Theological Anthropology for Ecclesiology

AUTHOR: PATRICK S. FRANKLIN

SUMMARY:
Our conception of human personhood deeply impacts our understanding and practice of community and church. In this rigorous work Franklin argues that ecclesiology needs to be informed and shaped by a robust theological anthropology.

COMMENDATIONS:
‘This book calls for exactly what evangelicalism needs in order to reinvent itself: a return to the incarnation as the foundation for a robust ecclesiology based on a Christ-centered anthropology. Franklin’s book is an important contribution.’

Jens Zimmermann, Trinity Western University, Canada

‘Trinitarian love is not only God’s essence but also how God has chosen to relate to human creatures. This is Patrick Franklin’s basis for proposing a Trinitarian anthropology-ecclesiology. Reading Being Human, Being Church will be catalytic for transformative participation in the triune love that witnesses to the world in anticipation of the coming reign of God.’

Theological Antinomy
A Biblical Theology of Paradox
AUTHOR: JOEL D. ARNOLD

SUMMARY:
Scripture’s teaching on the Incarnation, the Trinity, divine sovereignty with human responsibility, and the problem of evil leads to irresolvable tensions or paradoxes. In the process of building a biblical theology of paradox, Theological Antinomy carefully assesses the biblical passages for whether they truly contain tensions and if any of the resolutions that have been suggested are sufficient. Joel Arnold suggests a model for how conservative interpreters can proceed through the theological process without distorting the exegetical information or abandoning logical consistency. The book concludes with a rigorous, critical examination of Open Theism and its handling of theological paradox.

COMMENDATIONS:
‘This impressive work by Joel Arnold breaks new ground on the issue of paradox in theological prolegomena, helpfully integrating exegetical, historical, and methodological perspectives. I consider it an excellent complement to my own work on paradox in Christian theology, since it addresses some of the very questions I had posed for further exploration.’

Saved, Sanctified and Serving
Perspectives on Salvation Army Theology & Practice
AUTHOR: DENIS METRUSTERY

SUMMARY:
This comprehensive, significant work on Salvation Army theology and practice is designed to help reinforce Salvationists’ appreciation of their movement’s raison d’être and mission, helping to reiterate the Army’s unique position within the Church and as part of global faith-based responses to humanitarian need. The writers in this volume hold and proclaim a clear vision for the Army’s future, fully seizing contemporary opportunities while retaining the fire and zeal of the primitive Movement.

COMMENDATIONS:
‘In this ground-breaking book the author fields a strong international team of The Salvation Army’s foremost thinkers to offer a fresh 21st century perspective on the Army’s theology and three-fold mission. It is ideal both as a thought provoker for Salvationists and as an introduction to the modern Salvation Army.’

SUMMARY:
This unique book aims to provide the first extended account of the intellectual history of aesthetic discourse among British and American evangelicals from the awakening of a modern aesthetic consciousness in the eighteenth century to the fundamentalist-modernist controversy of the early twentieth century. Drawing on an extensive but largely forgotten body of periodical source materials, it seeks to map the evangelical aesthetic tradition’s intellectual terrain, to highlight its connections to other philosophical discourses, and to assess some of its theological implications. In doing so, it challenges the still prevalent stereotype of evangelicalism as aesthetically ‘impoverished’ and devoid of serious reflection on the arts.

COMMENDATIONS:
‘Chad Stutz has written a work of archival scholarship and intellectual history familiar with real Evangelical life, learned and scrupulous about theological and sectarian distinctions within what he calls ‘the Protestant ideology,’ and movingly animated by an effort to establish the history and meaning of his own deep conviction that art and Evangelical thought speak of the same Creation.’

SUMMARY:
Reformation Letters is a detailed look at the reformer’s letters – mostly of a pastoral nature – letters that help define the Reformation and demonstrate Calvin’s concerns, his strengths, his weaknesses, against the background of his own time and contemporaries.

COMMENDATIONS:
‘In this fascinating monograph, Michael Parsons discusses the personal responses of Calvin to life’s difficult circumstances. I loved this book. I think its real strength is in revealing the humanity of Calvin against his official theology.’

SUMMARY:
A great deal of confusion attends the process of sanctification in the church today. The reformer John Calvin, however, had a clear understanding of precisely how holiness proceeds and how it might be best enhanced. In *Pious Pastors*, Calvin’s theology of sanctification is explained in fourteen propositions and his practice of sanctification is summarized in ten transformational discipling methods. For the Christian who wants to understand how to become more like Christ, and for those who train Christian leaders, this book will become an invaluable aid.

COMMENDATIONS:
‘In this important new volume, Tom Hawkes takes us back to John Calvin’s framework for sanctification, and how that framework helped train a generation of godly pastors. Hawkes not only provides a careful and insightful scholarly study of Calvin’s Genevan Academy, but also a timely resource for the church today. The combination of deep scholarship and practical relevance makes this essential reading. I highly recommend it.’

SUMMARY:
This is the first full-length detailed survey and critique of modern Jerome scholarship, covering the crucial period 1880-2014. At one level, the author ably argues that, despite Jerome’s faults, his work holds many important insights into the Early Church’s formation of Christian identity and Christian orthodoxy. On another level, by examining aspects of Jerome’s writing through the lens of modern scholarship, the study also illuminates the changing directions and perspectives of Jerome studies.

COMMENDATIONS:
‘Many studies have been written on Jerome in recent times. For those unable to read them all Chris Knight has provided a valuable critical guide, expounding them and assessing their significance. Not to be missed by those with an interest in Jerome.’

The ‘After Christendom’ series is designed to explore the ramifications of the demise of Christendom and the challenges facing a church now consigned to the margins of western society. It aims to invite discussion and further exploration of a range of issues such as social and political engagement, peace and violence, how we read Scripture, mission, worship, and the shape and ethos of church after Christendom. The authors all write from within the Anabaptist tradition and draw on this movement for inspiration and insight.
